

The Holy Sepulchre.

We do not entertain the wish expressed by the Rev. Canon MacColl in the *Contemporary Review* that the Holy Sepulchre, the place of Christ's burial, had never been known. He maintains that if it had been known the battles fought over it and the rancorous disputes held over it would never have taken place. It seems to him lamentable that the holiest spot in the Holy Land has been indirectly the cause of more carnage than any other spot on earth, and still engenders jealousies, intrigues, and bad blood among rival Christian communions. "Even in our generations," he adds, "we have seen one of the greatest wars of modern times originating in dispute between Christian nations about the scene of our Lord's death and burial, a war which cost our country streams of precious blood and added £100,000,000 to our national debt."

With due respect to the Rev. Canon MacColl, we suggest that it may be unwise to give utterance to these sad thoughts. We guess that, even if the site of the Holy Sepulchre had remained forever unknown, the Crusades and every other war down to that of the Crimea for which it served as a pretext, would nevertheless have been fought very much as they were. It is not worth while to raise a contention as to what might have happened in the world if certain things had been different from what they were; but it is pretty certain then when Islamism strove to gain the mastery over Christianity, Christendom had to enter upon the Crusades in order to repel an aggressive enemy who cared nothing for the sacred spot, and that when the interests of the Western allies came in conflict with those of Russia it was this conflict far more than any question of the Holy Sepulchre which brought about the sanguinary and expensive war of 1854-5. All these wars would doubtless have taken place if the site of Christ's burial had been unknown, and the disputes between rival Christian communions over it would probably have occurred even if less had been known about it than is now believed. The real causes of wars are not always obvious even to those engaged in them, and are hardly ever inscribed on the banners of the combatants.—*N. Y. Sun.*
